HOW TO USE THE INDEX

This volume contains a complete index to material published in PLAYBOY from January through December 1971.

The contents of the magazine are divided into categories as follow:

Section 1 Nonfiction: All feature-length articles plus certain regular features such as *The Playboy Philosophy* and the *Playboy Interview* are indexed by article title, contributor (such as author, illustrator, photographer), subject and proper names of personalities, events, etc.

Section 2 Fiction: Stories and Ribald Classics are indexed by title, contributor (such as author, illustrator, photographer) and subject.

Section 3 Pictorials: All features that are essentially pictorial in nature (artwork as well as photographs) are indexed by title, contributor (author, illustrator, photographer) and the individuals appearing in the pictures.

Section 4 Service: Informative articles on gifts, fashion, food and drink, travel, merchandise, home furnishings, automobiles and sports are included here. Material is indexed by title, contributor, subject and names and locations of establishments where appropriate.

Section 5 Letters: Correspondence published in *Dear Playboy*, *The Playboy Forum*, *The Playboy Advisor*, plus the information in *Forum Newsfront* are indexed by title and subject as well as by names of prominent letter writers.

Section 6 Reviews: Theatrical productions, movies, recordings, books, restaurants and night-club acts are regularly reviewed. They are indexed by performer, author, producer, director and geographical location (of restaurants and night-club acts).

Section 7 Composite: All the entries appearing in the first five sections (not including Section 6 Reviews) are merged here in a single alphabetical listing.

Several rules or conventions have had to be adopted in the index. There are three basic forms of entry:

A **title entry** (in which the bold-faced heading is the title of the article) is listed alphabetically by the first significant word in the title (articles such as *a, an, the* are disregarded). Titles beginning with a numeral appear in proper alphabetical order as though the number were written out *(Nineteen-sixty Playboy All-Stars)*. Where appropriate, the title entry contains a capsule description of the article or story. The contributor is listed followed by a parenthetical description of his role, such as author, illustrator, translator. The last line of the entry gives the magazine department, issue date and page.

A **contributor entry** is listed alphabetically by the contributor's last name, followed by his role in parentheses. The same contributor may appear several times, each in a different role, and he may have several entries under each role. Each contributor entry lists the title of the article and, when the contributor is not the principal author, the author's name. Last line of the entry gives magazine department, issue date and page.

A **subject entry** is taken from the subject matter discussed, names of well-known personalities mentioned, locations, events, institutions and, in general, all proper names appearing in the text of the article. Title and contributor information appear under the contributor entry, followed by magazine department, issue date and page.

To avoid repetition, when a serialized story appears under a subject entry, only part one (first in the series) is referenced.
